-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 13 February 2007.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Response to Amendment

The amendment filed 7/27/06 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material, which is not supported by the original disclosure, is as follows: Presenting the second expression to a student and providing means to score the number of clues used by the student.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1 & 3 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The formation of a second "expression"

critical or essential to the practice of the invention, does not appear to be enabled by the disclosure.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 & 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Alam (602).

Alam discloses Vocabulary Building Game Cards.

Regarding claims 1 & 3

Alam teaches a vocabulary building exercise using words (see abstract and claim 1), lesser-known words in the form of definitions and root words, which can be considered second expressions, (see col. 4, lines 1-21) and a means for scoring in the form of a scoring system (col. 4, lines 63 - 67).

Art Unit: 3711

Alternatively:

Claims 1 & 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Mankoff et al. (651).

Mankoff discloses Vocabulary playing cards.

Regarding claims 1 & 3

Mankoff teaches vocabulary building cards with words and definitions (2nd expressions), which are used to decipher the vocabulary word (see abstract, claim 1 and col. 2, lines 29-68). Mankoff further teaches means for marking (scoring) values for the cards during game play (see claim 5).

Response to Arguments

Applicant's arguments filed 2/13/07 have been fully considered but they are not persuasive for the 35 USC 102 rejection of the previous office action. Applicant has amended claims 1 & 3 to include new matter.

Applicant argues that the rejections are unsupported. Applicant further argues that with the reference to Alam, the student has no opportunity to apply the teaching to anything. Examiner disagrees. To apply the theory of memorization, active learning and thinking has to take place; it need not be verbal. Applicant articulated a specific

Art Unit: 3711

method of play that is not disclosed in his specification. Applicant seems to trying to claim the mental process of an individual or solutions based on a person's knowledge.

Examiner would like to point out that Mankoff teaches vocabulary building cards with words and definitions, which are used to decipher the vocabulary word (see abstract, claim 1 and col. 2, lines 29-68). The act of deciphering utilizes one's existing knowledge base whether it is vocabulary or evaluation.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and are cited to show the state of art with respect to features of the claimed invention.
